HARTER

STEEL CHAIRS
FOR MODERN OFFICES

This catalog is designed as a useful and permanent sales aid for Harter dealers. Its loose-leaf form permits new pages to be added as new models are announced. The heavy paper stock used for the cover will withstand the wear-and-tear which full-line catalogs undergo. The standard 8½" x 11" page size is used throughout.

Each sheet in the catalog is a unit in itself. Both sides of every page deal either with one suite of chairs or with related items in a single line. Thus, each sheet may be used for mail and give-away purposes in addition to its primary use in this catalog. There is space on every page for the Harter dealer to imprint his name.

Additional copies of all pages herein are available to dealers, printed flat and not punched, for mailing list and sales literature uses. When you write your requirements, please let us know how many pages you wish punched, and how many not punched.

Manufactured by

HARTER CORPORATION
STURGIS, MICHIGAN

G U A R A N T E E

Harter has always guaranteed customer satisfaction. Hundreds of thousands of satisfied users know the meaning of this unequivocal guarantee. It works in actual practice. It is the iron-clad policy of our business. Harter's famous guarantee of satisfaction stands squarely behind every chair illustrated in this catalog.

H A R T E R
Q U A L I T Y
S I N C E
1 9 2 7

Harter Corporation was founded in 1927. Compared to many companies in other industries, we are still young. But more than 20 years devoted to the manufacture of fine steel office furniture make Harter a pioneer in its field.

Our business was founded on the conviction that quality is the first obligation of a manufacturer. We have always operated according to that belief. We will continue to build chairs that live up to the standards of Harter quality. This policy works out best for our customers, our dealers, and ourselves.

NEW POSTURE CHAIR FOR EXECUTIVES

MODEL 65

THE 65

- Upholstery** Goodall *Gros Point* Fabric, 100% mohair frieze. Choice of rich, masculine colors and lovely pastel shades.
- Finish** Baked enamel, two coats. Choice of Metallic Gray, Green, or Brown; also Grained Walnut or Grained Mahogany.
- Seat** 22 inches wide, 20 inches deep. Cushioned with U. S. Koylon Foam, 4 inches thick. Height adjustable 17½ to 21½ inches. Tension of seat tilt adjustable.
- Back** 18½ inches wide, 18 inches high. Cushioned with U.S. Koylon Foam, 4 inches thick. Tension of tilt adjustable; back is also adjustable both horizontally and vertically.
- Arms** 3¾ inches across at widest point. 18½ inch spread between. Cushioned with U. S. Koylon Foam.
- Base** One-piece, formed steel. Oil-impregnated bronze bearing on top of sleeve. Stainless steel scuff-plates. 2 inch ball bearing casters, soft rubber tread.
- Height** Minimum overall, 35 inches. Maximum overall, 38 inches.
- Weight** 67 pounds net. Shipping weight approximately 96 pounds.

At last—an executive posture chair that combines adjustable comfort and graceful appearance! Harter has designed the 65 expressly for executives who demand true posture chair comfort without sacrificing big-chair beauty and luxury.

There's a world of comfort in the 65. It features thick cushions of U. S. Koylon Foam, the resilient foam rubber that stays soft and buoyant, cool and clean. It has five separate hand-wheel controls which you adjust to your own comfort requirements. It is upholstered in Goodall *Gros Point* Fabric, luxurious and long-wearing. And the 65 gives you Seng "Syncro-Tilt" chair action control—when you lean back, the seat and back tilt together in perfect synchronization, smoothly and silently.

HARTER CORPORATION • STURGIS, MICHIGAN

NEW POSTURE CHAIR FOR JUNIOR EXECUTIVES

MODEL 66

Harter's posture chair for junior executives offers the same comfort and style features as the larger No. 65. Identical in action with the 65, this junior executive model is also ideal for women executives.

Cushioned with U. S. Koylon Foam, resilient, soft, porous. Luxuriously upholstered in Goodall *Gros Point* Fabric. Fully adjustable — by means of simple hand-wheel controls—to the user's own comfort. The 66 comes equipped with Seng "Syn-cro-Tilt" chair action control. One-piece base is smooth and silent in action.

The 66, like the 65, encourages healthful posture by providing correct support. Both of these chairs increase efficiency by helping to reduce office fatigue.

THE 66

Upholstery	Goodall <i>Gros Point</i> Fabric, 100% mohair frieze. Choice of rich, masculine colors and lovely pastel shades.
Finish	Baked enamel, two coats. Choice of Metallic Gray, Green, or Brown; also Grained Walnut or Grained Mahogany.
Seat	19 inches wide, 19 inches deep. Cushioned with U.S. Koylon Foam, 2½ inches thick. Height adjustable 16¾ to 20¾ inches. Tension of seat tilt adjustable.
Back	15¼ inches wide, 11 inches high. Cushioned with U.S. Koylon Foam. Tension of tilt adjustable; back is also adjustable both horizontally and vertically.
Arms	2½ inches across at widest point. 19 inch spread between. Cushioned with U. S. Koylon Foam.
Base	One-piece, formed steel. Oil-impregnated bronze bearing on top of sleeve. Stainless steel scuff-plates. 2 inch ball bearing casters, soft rubber tread.
Height	Minimum overall, 32 inches. Maximum overall, 35 inches.
Weight	55 pounds net. Shipping weight approximately 92 pounds.

p. 2

POSTURE CHAIRS FOR OFFICE WORKERS

Every Harter posture chair is fully adjustable to each user's own individual requirements. Adjustments are made quickly and easily, *without tools*, by means of hand-wheel controls. These controls regulate (1) height of seat, (2) height of back-rest, and (3) backward-forward position of back-rest.

The rigid back constitutes an important advantage of Harter posture chairs. Comfortably curved-to-fit, it provides the firm support needed for erect, healthful posture during long hours at work.

Molded foam rubber cushions provide deep-seated comfort on Harter's E-15D and E-32C posture chairs. This soft foam rubber will never sag or lose its shape—it remains permanently resilient and buoyant. Extruded plastic welt seam conceals all sewing around the cushion. All-steel construction guarantees years and years of trouble-free service.

Note: E-15C posture chair identical with E-15D except E-15C has 1 inch tubing base.

E-15D

Upholstery. Mohair fabrics, Koroseal, plastic coated fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown.

Seat. 16 inches wide, 14½ inches deep, 3½ inches thick. Height adjustable from 18 to 22 inches. Molded foam rubber cushion. Extruded plastic welt seam.

Back. 13½ inches wide, 7½ inches deep, 1 inch thick. Adjustable backward-forward through 10 inch range, up-and-down through 2¾ inch range. Padded with soft curled hair.

Base. 1¼ inch O.D. cold rolled, round steel tubing. Arc-welded construction.

Casters. 2 inch diameter, ball bearing, soft rubber tread.

Weight. 27 lbs. net, 30 lbs. shipping.

E-32C

Upholstery. Mohair fabrics, Koroseal, plastic coated fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown.

Seat. 16 inches wide, 12½ inches deep, 2¾ inches thick. Height adjustable from 18 to 22 inches. Molded foam rubber cushion. Extruded plastic welt seam.

Back. 13¼ inches wide, 6¼ inches

deep, 1 inch thick. Adjustable backward-forward through 10 inch range, up-and-down through 2¾ inch range. Padded with soft curled hair.

Base. 1 inch O.D. round steel tubing. Arc-welded construction.

Casters. 2 inch diameter, ball bearing, soft rubber tread.

Weight. 25 pounds net. Shipping weight approximately 28 pounds.

HARTER CORPORATION • STURGIS, MICHIGAN

POSTURE CHAIRS FOR SPECIALIZED JOBS

Harter makes a posture chair to meet the requirements of every job. No. E-31C serves as a general utility chair for the office, while No's. E-31C-22 and E-31C-28 offer greater height for specialized work, such as switchboard operator, cashier, bank teller, and clerk.

These posture chairs feature the same adjustment controls as the chairs on the reverse side of this page. And they offer the advantages of Harter's comfortable rigid back, designed for firm support and correct posture. Strongly built of steel, arc-welded throughout. Molded Paratex cushions, backs padded with soft curled hair.

E-31 C

Upholstery. Mohair fabrics, Koroseal, plastic coated fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown.

Seat. 16 inches wide, 12 inches deep, 2 inches thick. Height adjustable from 18 to 22 inches. Molded Paratex cushion.

Back. 13½ inches wide, 6 inches deep, 1 inch thick. Adjustable backward-forward through 10 inch range, up-and-down through 2¾ inch range. Padded with soft curled hair.

Base. 1 inch O.D. round steel tubing. 1½ inch soft rubber casters. Arc-welded construction.

Weight. 25 pounds net, 28 pounds shipping.

E-31C-22

Upholstery. Mohair fabrics, Koroseal, plastic coated fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown.

Seat. 16 inches wide, 12 inches deep, 2 inches thick. Height adjustable from 22½ to 26½ inches. Molded Paratex cushion.

Back. 13½ inches wide, 6 inches deep, 1 inch thick. Adjustable backward-forward through 10 inch range, up-and-down through 2¾ inch range. Padded with soft curled hair.

Base. 1 inch O.D. round steel tubing. Equipped with 19 inch foot ring. Arc-welded construction.

Weight. 27 pounds net, 30 pounds shipping.

E-31C-28

Upholstery. Mohair fabrics, Koroseal, plastic coated fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown.

Seat. 16 inches wide, 12 inches deep, 2 inches thick. Height adjustable from 28½ to 32½ inches. Molded Paratex cushion.

Back. 13½ inches wide, 6 inches deep, 1 inch thick. Adjustable backward-forward through 10 inch range, up-and-down through 2¾ inch range. Padded with soft curled hair.

Base. 1 inch O.D. round steel tubing. Equipped with 19 inch foot ring. Arc-welded construction.

Weight. 29 pounds net, 32 pounds shipping.

Note: Swivel glides furnished as standard equipment on E-31C-22 and E-31C-28. Casters may be ordered but this is inadvisable because of definite safety hazard involved.

SEE YOUR HARTER DEALER

THE HARTER PRESIDENTS STEEL CHAIR SUITE FOR EXECUTIVES

NO. 700

PRESIDENT NO. 700 SWIVEL ARMCHAIR

U.S. Koylon Foam cushions the seat, back, and arms of the President suite. This soft and resilient foam rubber will never sag or pack down. It remains buoyant, cool, clean.

The Presidents come upholstered in Goodall *Gros Point* Fabric, rich in appearance and color. This 100% mohair frieze fabric combines rugged strength and lasting beauty.

Durable, satin-smooth baked enamel adds the finishing touch to the Presidents' luxurious appearance. Two coats are baked on to insure a hard and glossy finish that resists chipping, flaking, and cracking.

Two separate hand-wheel controls permit easy adjustment of the seat height and the tension of seat tilt on the 700. Collier-Keyworth's heavy duty chair control is standard equipment on this chair. Its "Equi-Balanced" action means effortless comfort in every position. The precision fit of the shaft into Harter's new, one-piece base completely eliminates side-sway and squeaking.

Upholstery	Goodall <i>Gros Point</i> Fabric, 100% mohair frieze. Choice of rich, masculine colors and lovely pastel shades.
Finish	Baked enamel, two coats. Choice of Metallic Gray, Green, or Brown; also Grained Walnut or Grained Mahogany.

Back	19 inches wide, 17 inches high, 4 inches thick.
Arms	3¼ inches across at widest point. 20 inch spread between.
Base	One-piece, formed steel. Oil-impregnated bronze bearing on top of sleeve. Stainless steel scuff-plates.
Casters	2 inch diameter, ball bearing, soft rubber tread.
Height	Minimum overall, 35 inches. Maximum overall, 38 inches.
Weight	57 pounds net. Shipping weight approximately 105 pounds.

PRESIDENT NO. 710
MATCHING SIDE ARMCHAIR

HARTER CORPORATION • STURGIS, MICHIGAN

Printed in U. S. A.

THE HARTER PRESIDENTS STEEL CHAIR SUITE FOR EXECUTIVES

PRESIDENT NO. 710 SIDE ARMCHAIR

The President No. 710 makes a perfect match for the No. 700 swivel chair. The 710 features the same luxurious comfort and dignified beauty. It offers the same choice of finishes—rich walnut or mahogany, grained by hand, or metallic finish in gray, green, or brown.

Soft and deep U.S. Koylon Foam cushions the seat, back, and arms. This wonderfully buoyant foam rubber is composed of tiny interconnecting air cells which conduct heat away from the cushion. Its completely porous construction cannot be worn down or pressed out of shape. The result is cushions which never lose the look and feel of newness.

The Presidents offer every feature you want in fine office chairs. This suite delivers the ultimate in comfort, beauty, and performance. Steel construction, arc-welded throughout, guarantees long years of flawless and trouble-free service.

HARTER'S C-1500 SUITE

These chairs provide a life-time of service at surprisingly low cost. Special coil spring seat construction provides resilient support for years of deep-cushioned comfort. Soft padding covers both the seat and back of each chair in the C-1500 suite.

Collier-Keyworth's heavy duty chair control on the C-1500 provides effortless comfort in every position. Made of heavy gauge steel, machine-riveted, this chair control gives permanent satisfaction. Its precision fit in the sleeve of Harter's sturdy one-piece base eliminates side-sway and squeaks and rattles.

The C-1500 suite possesses the lasting durability of all-steel construction. Cold rolled, heavy gauge square tubing is used throughout for extra strength and modern design. The backs on these chairs are fully upholstered, with no metal parts left exposed. The steel arms on the C-1500 and C-1510 are smartly styled with padded, upholstered arm rests.

p. 7

**COMPANION PIECES
TO C-1500 SUITE**

The C-1520 and C-1530 match the two armchairs on the reverse side of this page. These four chairs comprise an ideal suite for large offices and offices shared by two executives.

The same wide choice of upholstery materials is available on these two chairs as on the C-1500 and C-1510. Baked enamel finish comes in metallic gray, green, or brown; also grained walnut or grained mahogany. Coil spring seat construction, covered with soft padding, affords deep-seated comfort.

Harter's new one-piece base (patent applied for) adds smartness and big chair distinction to the C-1530. This model, like the C-1500, features Collier-Keyworth's heavy duty chair control, the finest made. It provides effortless comfort, ease of operation, and complete silence in action.

HARTER "COMFIT" TYPIST CHAIRS

Here is real comfort for typists, stenographers, and clerical workers. Harter's 56-S and 56-D "Comfit" chairs feature four separate adjustments which the occupant makes quickly and easily. Simple but positive hand-wheel controls regulate (1) height of seat, (2) up-down position of back, (3) backward-forward position of back, (4) back tilt tension.

Harter's special spring back on the "Comfit" chairs g-i-v-e-s for tilt-back relaxation, remains rigid when occupant sits upright at work. Molded cushion of U.S. Koylon Foam Rubber, 3½ inches thick, stays soft and resilient, keeps cool and clean. Back-rest also cushioned with U.S. Koylon Foam.

The 56-S "Comfit" comes with Harter's streamlined sheet steel base, arc-welded throughout, completely noiseless in action. The 56-D "Comfit" is identical with the 56-S save that it features Harter's 1¼ inch tubular base.

56-S

Upholstery. Koroseal, plastic coated fabrics, mohair fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown; also Grained Walnut or Grained Mahogany.

Seat. 16¼ inches wide, 14 inches deep. Cushion 3½ inches thick, molded U.S. Koylon Foam Rubber. Height

is adjustable from 17 to 22 inches.

Back. Spring action. Formed sheet steel. 1 inch thick, 7¼ inches deep, 11⅝ inches wide. Cushioned with U.S. Koylon Foam Rubber.

Base. Streamlined, formed sheet steel. 2 inch ball bearing casters, soft tread.

Weight. 35 pounds net. Approximately 38 pounds shipping.

56-D

Upholstery. Koroseal, plastic coated fabrics, mohair fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown.

Seat. 16¼ inches wide, 14 inches deep. Cushion 3½ inches thick, molded U.S. Koylon Foam Rubber. Height adjustable from 17½ to 22 inches.

Back. Spring action. Formed sheet steel. 1 inch thick, 7¼ inches deep, 11⅝ inches wide. Cushioned with U.S. Koylon Foam Rubber.

Base. 1¼ inch O.D. cold rolled, round steel tubing. Arc-welded construction. 2 inch ball bearing casters, soft tread.

Weight. 33 pounds net. Approximately 36 pounds shipping.

SADDLE-SEAT "COMFIT" CHAIRS

59-S

These two "Comfit" chairs differ from the 56-S and 56-D only in their saddle-shaped seats. Identical in design and performance.

59-S. Upholstery. Koroseal, plastic coated fabrics, mohair fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown; also Grained Walnut or Grained Mahogany.

Seat. Saddle-shaped, formed sheet steel. 15½ inches wide, 14⅞ inches deep. Cushioned with U.S. Koylon Foam Rubber. Height adjustable 16 to 21 inches.

Back. Spring action. Formed sheet steel. 1 inch thick, 7¼ inches deep, 11⅝ inches wide. Cushioned with U.S. Koylon Foam Rubber. **Base.** Streamlined, formed sheet steel. 2 inch ball bearing casters, soft tread.

Weight. 33 pounds net. Approx. 36 pounds shipping.

59-D

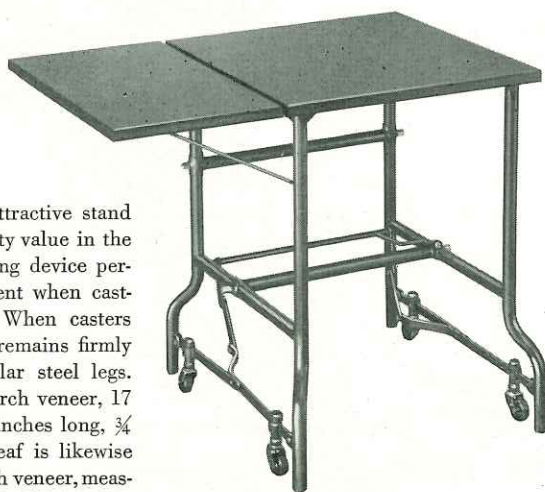

59-D. Upholstery. Koroseal, plastic coated fabrics, mohair fabrics, or leather. Each available in Green, Maroon, or Brown.

Finish. Baked enamel, two coats. Metallic Gray, Green, or Brown.

Seat. Saddle-shaped, formed sheet steel. 15½ inches wide, 14⅞ inches deep. Cushioned with U.S. Koylon Foam Rubber. Height adjustable 16½ to 21 inches.

Back. Spring action. Formed sheet steel. 1 inch thick, 7¼ inches deep, 11⅝ inches wide. Cushioned with U.S. Koylon Foam Rubber. **Base.** 1¼ inch O.D. cold rolled, round steel tubing. Arc-welded construction. 2 inch ball bearing casters, soft tread. **Weight.** 31 pounds net. Approximately 34 pounds shipping.

TYPEWRITER STAND 41-A

This sturdy and attractive stand has excellent utility value in the office. The elevating device permits easy movement when casters are lowered. When casters are raised, stand remains firmly in place on tubular steel legs. Top is of 5-ply birch veneer, 17 inches wide, 18½ inches long, ¾ inch thick. The leaf is likewise made of 5-ply birch veneer, measures 12 inches wide, 18½ inches long, and ¾ inch thick. Legs are tubular steel, 1 inch O. D. Overall height of stand, 26 inches. Baked enamel finish in green, gray, or brown. Leaf furnished on left side of stand unless otherwise specified on order.

FILE STOOL 114

Designed primarily for use in filing when using bottom file drawers, Harter's No. 114 stool serves several needs in the office. It features a broad seat, 14 inches in diameter. Constructed entirely of steel and welded throughout. Attractively finished in metallic gray, green, or brown. Two coats of baked enamel eliminate chipping and cracking. Stool seat is 14 inches from floor. Composition casters. Base made of 1 inch O.D. tubular steel. This stool should be ordered in a color that contrasts with the color of the files with which it is used. Such a contrast eliminates danger of falling caused by failure to observe the stool.

NAMES FAMOUS FOR QUALITY

The products that go into Harter chairs are made by manufacturers whose names are famous for quality. Every supplier with whom Harter deals ranks as a leader in his respective field.

There is nothing accidental about Harter's choice of suppliers. They make products of superior quality—and so does Harter. It is only logical that we should insist upon the excellence of every product, every part, and every service which go into our chairs. This insistence serves as your further guarantee of complete satisfaction.

The products named below are but a few of the many which help to safeguard the quality for which Harter is known and respected.

SENG

CHAIR CONTROLS

Seng is famous for quality because its chair controls afford truly individual comfort. Furnished on all Harter posture chairs. Each control is specifically designed for the particular chair it's built to serve.

Goodall

FABRICS

"The Finest Name in Fabrics." Subsidiary of Goodall-Sanford, Inc. Famous for luxurious fabrics in rich, beautiful shades. *Gros Point* is the Goodall Fabric selected by Harter to upholster executive chairs.

COLLIER - KEYWORTH

CHAIR CONTROLS

Guaranteed to give permanent satisfaction—and they do! "Equi-Balanced" action means effortless comfort in every position. Tension of seat tilt and height of seat are both easily adjustable by the occupant.

HARTER

Koroseal

TRADE MARK REG. U.S. PAT. OFF.

UPHOLSTERY

Developed and perfected by B. F. Goodrich Co. This flexible upholstery material washes like glass, wears like iron. Several rich, masculine colors and pastel shades—available on most Harter chairs.

"U.S." Koylon

REG. U.S. PAT. OFF.

FOAM

The foam rubber product of United States Rubber Company. Clean and cool, resilient and porous. Known throughout the nation as one of the most comfortable cushions ever developed. Self-venting, sag-proof.

Bassick

DIAMOND ARROW CASTERS

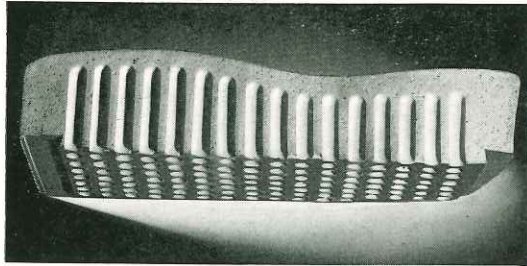

Recognized leader in the field of quality casters. Smooth, quiet performance, easy operation, and trouble-free service. These are the reasons why Harter chairs feature Bassick Diamond Arrow casters.

HARTER CORPORATION • STURGIS, MICHIGAN

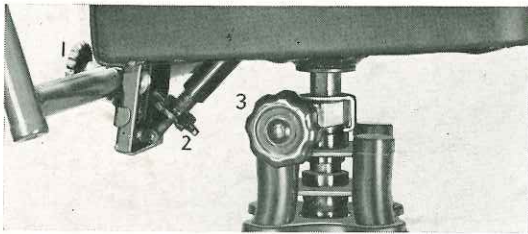

HARTER
9-13-1948

COMFORT AND STYLE FEATURES

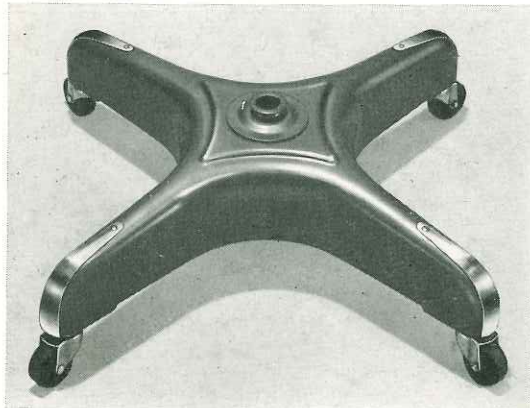

U. S. KOYLON FOAM CUSHION

This wonderfully soft foam rubber will not wear down or lose its shape. U.S. Koylon Foam remains resilient forever. Its unique porous construction, consisting of millions of interconnecting air cells, conducts heat away from the cushion, keeps it cool and clean. Cushions the seat, back, and arms of most Harter executive chairs.

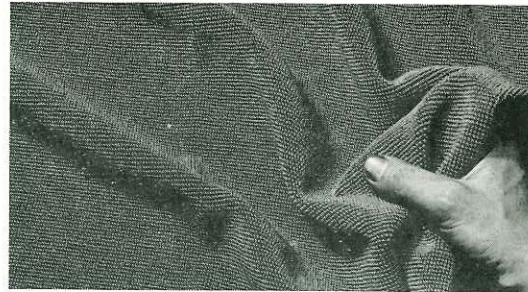

SENG POSTURE CHAIR CONTROL

Simple, positive adjustments are made quickly and easily on all Harter posture chairs. Hand-wheel controls are adjusted by each user to his or her own comfort requirements. Hand-wheel No. 1 moves the back-rest up and down. No. 2 controls the forward-backward position of the back-rest. No. 3 regulates the height of the seat.

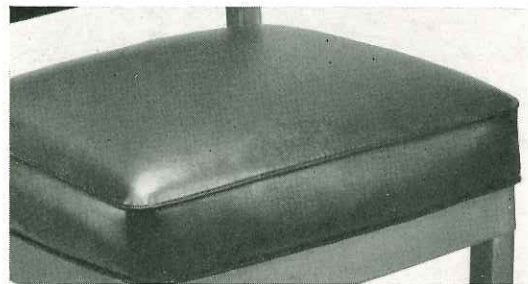

ONE-PIECE SWIVEL BASE

Harter's one-piece base is fashioned from a single sheet of formed steel. Castings, nuts, screws, and bolts are eliminated. Nothing to rattle or shake loose. An oil-impregnated bronze bearing on top of sleeve does away with squeaking and eliminates need for frequent oiling. Low, graceful, functional. Stainless steel scuff-plates.

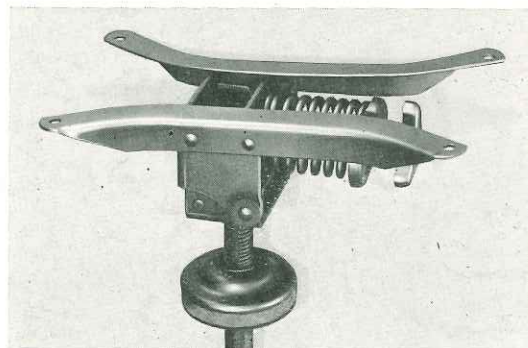

GOODALL GROS POINT FABRIC

This luxurious upholstery fabric wears extremely well. A 100% mohair frieze, Goodall *Gros Point* may be ordered on all Harter chairs. A wide range of rich, masculine colors and lovely pastel shades are available. Modern good taste and lasting durability are combined with striking results in Goodall *Gros Point* Fabric.

KOROSEAL FLEXIBLE SYNTHETIC

This is the upholstery material developed by B. F. Goodrich. Completely waterproof, Koroseal can be washed as safely and easily as glass. It will not chip or crack, does not wear thin, is practically scuff-proof. Koroseal resists ink, greases, and perspiration. Remains flexible and wrinkle-free. Rich masculine colors, lovely pastel shades.

COLLIER-KEYWORTH CHAIR CONTROL

The "Equi-Balanced" action of this heavy duty chair control provides perfect comfort in every position. Made of heavy gauge steel, machine-riveted. Positive adjustments, easily made by the user, control the tension of back tilt and also height of seat. Shaft fits into base so precisely that side-sway and squeaks are eliminated completely.
